Notice of Intent to Discharge - I

Wastewater Customers

Chapter 62-625 Florida Administrative Code requires public utilities operating industrial pretreatment programs to identify and locate utilities' customers that are subject to the pretreatment program. For this reason Fort Pierce Utilities Authority (hereinafter referred to as FPUA) requires all new and existing customers discharging wastewater from a source other than a household to complete and file a Notice of Intent to Discharge form.

I. Source of Proposed Discharge - Check All That Apply

- New building (new wastewater connection)
- Taking possession or control of a facility already connected to FPUA's Wastewater System
- Changing the physical size or operations of an existing building that will:
 - Increase the discharge volume, and or,
 - Change the character of wastewater
- Notice of Intent to discharge contaminated ground water
- Notice of Intent to discharge hazardous waste
- Other Explanation:

I have selected all the options from above that apply.

II. Waste Stream Type and Volume - Check All That Apply

Wastewater is or will be produced from the following process at this location

- | | | |
|---|--|--|
| <input type="checkbox"/> Acid Etching Metal | <input type="checkbox"/> Employee Restrooms | <input type="checkbox"/> Phosphatizing Metal |
| <input type="checkbox"/> Air Pollution Control Unit | <input type="checkbox"/> Equipment/Facility Wash Down | <input type="checkbox"/> Plating Metal |
| <input type="checkbox"/> Automotive Repair/Service | <input type="checkbox"/> Painting Metal | <input type="checkbox"/> Sand Blasting Metal |
| <input type="checkbox"/> Boiling Blowdown | <input type="checkbox"/> Hauled Waste | <input type="checkbox"/> Vehicle Washing |
| <input type="checkbox"/> Cooling Tower Blowdown | <input type="checkbox"/> Food Service Facility - Harry Sherva, Pretreatment Supervisor, will contact applicants to explain the requirements for water and or wastewater service. | |

Other Explanation:

I have selected all the options from above that apply.

III. Total Daily Discharge Volume

Gallons:

Food Service Facility

Any facility which prepares and/or packages food or beverages for sale or consumption, on or off site, with the exception of private residences. Food service facilities shall include, but are not limited to: Food courts, food manufacturers, food packagers, restaurants, grocery stores, bakeries, lounges, hospitals, hotels, nursing homes, churches, schools and all other food service facilities not listed above.

Only check the one box that is applicable to your facility.

- * **Class I Food Service Facility - Requires a Grease Interceptor**
Any facility preparing or manufacturing food items and implementing the use of deep fryer equipment, stoves, cook tops (flame or non), or food processing equipment; or producing or selling Ice cream products that were not prepackaged for individual consumption, from another location.
- * **Class II Food Service Facility - Requires either a Grease Trap or Interceptor**
Class II Food Service Facility. Any facilities implementing the use of crock pots or soup pots, toaster ovens, hot dog rollers or other small cooking equipment that does not require cooking oil to operate, and that do not fit into the Class I Food Service Facility criteria.
- * **Class III Food Service Facility - No Grease Interceptor or Trap Required**
Any facility that only prepares and serves liquid beverages that do not contain ice cream products. This class allows packaged snack items to be served. No food preparation or use of any equipment listed in Class I or II will be allowed at Class III Food Service Facilities. Foods prepared at another location may be served at a Class III Food Service Facility but all clean-up associated with the serving of these food items, including but not limited to, dishes, utensils and serving equipment, shall be done at another location.
- * **Laundry, Automotive, and Car Wash - Requires either a Grease Trap or Interceptor**
- * **Business Does Not Meet Any of the Above**

I have selected 1 option from above.

Terms and Conditions

I expressly consent and authorize Fort Pierce Utilities Authority (FPUA), its Authorized Agents and assignees, for the purpose of servicing my account or to collect any amounts I may owe, to contact me by telephone, text message, e-mail or via the internet at any telephone number, e-mail address or website associated with my account, whether obtained from me or from third parties, including a cell phone, which could result in charges to me. Methods of contact may include using prerecorded / artificial voice messages, use of an automatic dialing device, text messages, e-mails, and communications via internet sites and/or social and business networking websites as applicable. I understand that consent is not a condition of obtaining utility service. I have read this disclosure and agree that FPUA and its Authorized Agents may contact me as described above.

The applicant understands that Fort Pierce Utilities Authority (FPUA) may withhold or discontinue Utility Service rendered under an application made by any member or agent of a family, household, organization, or business, unless all Prior Indebtedness to FPUA for the same class of Utility Service at anyone or more locations of such family, household, organization, or business has been settled in full. FPUA may also refuse Utility Service for Prior Indebtedness by a previous Customer if the current Applicant or Customer occupied the premises and/or received the benefits of the Utility Service at the time the Prior Indebtedness occurred, and/or the previous Customer continues to occupy the premises. The applicant further understands that if the utility bill is not paid by the due date, account is subject to penalty charges and disconnection. It is further understood that any charges incurred for collection of delinquent account(s) will be added to the customer's indebtedness. The current Collection Agency Fee of 18% will be added to the final utility bill. IT IS FURTHER UNDERSTOOD THAT BEFORE UTILITY SERVICE IS CONNECTED, THE CUSTOMER MUST ENSURE ALL FAUCETS AND CIRCUIT BREAKERS ARE TURNED OFF AT THE SERVICE ADDRESS WHERE THE UTILITIES ARE TO BE CONNECTED. I have read this disclosure and agree to the FPUA and its Authorized Agents terms.

I have read and agree to the FPUA Terms and Conditions.

It shall be the responsibility of each Customer to observe the pumping and cleaning procedure to ensure that the device is properly cleaned out and that all fittings and fixtures inside the device are in working condition and functioning properly.

Customer's Self Inspections: Customers shall be responsible for ensuring that Interceptors, Grease Interceptors and Grease Traps are thoroughly inspected at each pump out interval immediately after all wastes have been removed to ensure that the Interceptor is properly cleaned out, that it is structurally sound, and that all fittings and fixtures inside the Interceptor are in working condition and functioning properly. Grease Haulers shall report all deficiencies found during pump-outs and shall document these deficiencies as required in Section IV-12 of this Resolution/Ordinance. Failure of Grease Haulers to submit required report is a violation, subject to enforcement and penalties, as stated in Article V of this Resolution/Ordinance. This failure may also result in requiring the customer to have Interceptor re-pumped to allow for Inspection of interceptor by an FPUA inspector.

Inspection of Customer's Installation: All utility installations or changes requiring inspections, by law, shall be inspected upon completion by the competent authority to insure that piping, wiring, grounding, fixtures, and devices have been installed in accordance with the national codes and all such local rules and codes as may be in effect. Where governmental inspection is required by local rules or ordinances, FPUA cannot render service until such inspection has been made and formal notice of approval has been received by FPUA from the inspecting authority. Code enforcement is provided by the applicable code enforcement authority. FPUA reserves the right to inspect the Customer's installation prior to rendering service and from time to time thereafter, but assumes no responsibility whatsoever for any portion thereof. **Water and/or wastewater service is contingent upon Pretreatment Supervisors approval. Harry Sherva, Pretreatment Supervisor, will contact customer about requirement details. (ALL EXISTING INTERCEPTORS AND/OR TRAPS WILL REQUIRE AN INTEGRITY INSPECTION.)**
