

Florida residents prefer natural gas to heat their homes.

Our technicians are certified to perform a thorough job inspecting all components of your heating system equipment. This includes checking vent systems, heat exchangers, burners, and of course safety controls. By professionally maintaining your system you can significantly reduce the amount of repairs your system will require as well as extend the life of your system, all saving you money.

Furnace Repair & Maintenance

The best way to ensure your gas furnace is performing optimally throughout its lifetime is through regular professional maintenance service. All FPUA certified technicians provide high quality, responsive, maintenance services for your furnace. If it has been more than 12 months since your last furnace check up or maintenance service then now is the time to schedule a furnace maintenance service. Avoid costly furnace repairs by performing professional maintenance today.

Having your furnace inspected in the Fall is a great idea to avoid costly repairs or time without heat during the cold winter. We offer professional furnace inspection at the best price, a discounted fee for only **\$35 through November 30th.***

*Price includes inspection only. Repairs & Parts additional charge.

Normal Price: \$50

Chances are that at some point, with or without maintenance, you may require furnace repair services. It is extremely important for your safety and your system's integrity to have your furnace serviced by a qualified technician. Our furnace repair services will leave your furnace running properly and efficiently. So, give us a call at **772.466.1600 ext. 3900 today and ask for our FPUA furnace repair services.**

Don't wait until it's too late... Make the right choice now.

Have your gas furnace checked today before the cold weather snap.

THINGS TO CONSIDER

When you call to set up a maintenance appointment, you may help speed the process by having the answers to these questions:

- Is your system currently working?
- When was the last time you changed your air filter?
- How old is your existing system?
- Is your system keeping your home at a comfortable temperature?
- Does anyone in the family have allergies?
- Do you have any pets?
- Are there any lingering odors?
- Is your current system noisy?
- Is your system easily accessible?
- Are you aware a fee will be charged up front for maintenance?
