

# ENVIRONMENTAL NEW YEAR'S RESOLUTIONS

# 2018

[www.fpua.com](http://www.fpua.com)

## SAVE ENERGY

- Use motion-detector lights for all your outdoor lighting, they are convenient and efficient.
- Use less energy by using your microwave or toaster oven whenever possible.
- Turn kitchen and bathroom ventilation fans off when done to prevent them from pushing cooled air out of your house.
- Replace your five most-used lights with LED bulbs and invest in energy saving appliances.
- Air dry dishes instead of using your dishwasher's drying cycle. This can cut dishwasher energy use by 15-50%.

## CONSERVE WATER

- Turning off the tap while brushing your teeth can save up to 8 gallons of water per day.
- Install low-flow showerheads and faucet aerators.
- Check faucets, pipes and toilets for leaks and fix immediately.
- Take shorter showers and turn off water flow when soaping up or washing hair.
- Use a broom, not a hose, to clean sidewalks and driveways.

**SAVE  
WATER!**

In an average home, leaks can waste more than 10,000 gallons of water every year.

## REDUCE WASTE & RECYCLE

- Donate used clothing, toys, books and furniture to local charities or nonprofits that might give them a second life.
- When shopping, bring your own reusable bags for carrying purchases.
- Recycle as many materials as possible such as paper, glass, plastic and metal, but also consider repurposing items to give them a new life.

**SAVE A TREE!**

Approximately one billion trees-worth of paper is trashed each year in the U.S.

## SWITCH TO TREE-FREE BILLING

Sign up for email billing at [www.fpua.com](http://www.fpua.com) & receive:

- A monthly email letting you know your statement is available.
- A reminder email when the payment is due.
