

NATURAL GAS: *Major Appliances*

Take Value Beyond the Bank Account

Gone are the days of over-consumption and mindless spending. Today is about stepping back, seeing the bigger picture, getting the best-possible value—and bringing the right values home. And no home energy reflects this better than natural gas. Not only can you save an estimated 25%* on energy costs every month, you can feel good doing it. (*www.comfortableresponsible.org)

- **Green:** The average natural gas home emits 46% less carbon than its non-gas counterpart
- **Efficient:** Natural gas reaches your home directly (via large pipeline) at more than three times the efficiency of non-gas energy (via skinny wire)
- **Economic:** Thanks to inherent efficiency & new technology, natural gas appliances cost up to half as much to operate
- **Reliable:** Nearly 100% reliable, homes with natural gas can still cook and take hot showers even when the power goes out after a storm
- **Domestic:** Over 97% of the nation's natural gas comes from North America, keeping more jobs and energy dollars at home

The Appliances You Want

WATER HEATERS

Choosing a natural gas water heater is a no-brainer. 'To tank' or 'not to tank' is *the question*.

Tankless Water Heaters

- Endless hot water
- Up to 50% energy savings
- 20+ year lifespan
- Reduce up to 3,000 lbs of CO₂ every year

High-Efficiency Tank-Style Water Heaters

- Twice the hot water in half the time—
at about a third of the cost of non-gas!
- Lower purchase price
- Stay on when the power goes out
(Tankless requires simple battery)

RANGES

Nine-out-of-ten chefs prefer cooking with natural gas. (*The other guy makes sushi.*)

- Precise temperature control
- Even heat & instant on/off
- Up to half the operating cost
- Stay on when the power goes out

Clothes Dryers

Save time, energy—and *do more loads for less.*

- Dry clothes nearly twice as fast
- Moist natural gas heat is gentler on clothes
- Reduce wrinkles & prevent “over-cooking”

Get Cash Back. Start Saving Even Sooner!

Natural gas appliances are the ones you really want. And with cash rebates, you get the best—*for less.*

Tank Water Heater	\$550	\$300
Tankless Water Heater	\$675	\$500
Clothes Dryer	\$200	\$100
Range	\$200	\$100

*Rebates are subject to the availability of funds and may be discontinued without prior notification

Natural Gas Rebates: The Policy Behind the Program

The increased use of natural gas doesn't just help protect the environment. It helps conserve Florida's precious energy resources—guiding us all toward cleaner, more secure energy solutions. And while these appliances provide homeowners long-term cost and energy savings, they can also cost slightly more to purchase. Cash rebates exist to offset the initial expense of including natural gas, making it an easier choice for more homeowners—and encourage its use throughout Florida as a whole.
