PROJECT CARE

We are in this together.

The 2026 *Power of Giving* Campaign

This holiday season, join the power of giving...

Project CARE is a voluntary program that empowers people, businesses, and organizations to help families in our community who have experienced a hardship and are in danger of losing their utility service. The program began in 1998 and has been successful in aiding those in need. During Fiscal Year 2025, Project CARE participants donated over $5,100 to help those who lost their jobs, became sick, or faced other adversities and needed a neighbor's helping hand. Project CARE is administered through Mustard Seed Ministries, a community-based 501(c)3 nonprofit, that combines education and emergency assistance to empower and educate against continuing financial problems in the future.
