WATER NATURAL GAS ELECTRIC WASTEWATER INTERNET

FPUA Customer Connections

April 2026

April is National Safe Digging Month

FPUA gas operations team uses gps pole to locate underground utilities at new gate station site.

Spring is a great time to take on outdoor projects around your home and across our Fort Pierce community. As part of National Safe Digging Month this April, we're reminding customers that even small projects could have serious consequences if underground utility lines are damaged.

Before you dig, contact Sunshine 811 by dialing 8-1-1 or submitting a request online. This free service alerts utility providers to mark the approximate location of underground lines on your property—helping you avoid electric, water, wastewater, natural gas, and fiber infrastructure. Be sure to request line markings at least a few days before your project begins. Taking this simple step helps prevent neighborhood service disruptions, protects essential services, and keeps your project on track.

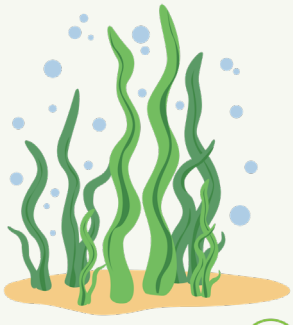
Supporting Our Environment This Earth Month & Beyond

For over 50 years, FPUA has served as the municipal utility for Fort Pierce, supporting the daily needs of our community. As we celebrate Earth Month this April, FPUA will highlight our commitment to reliable utility service and the sustainable practices that help protect the natural resources our community depends on.Through initiatives like water reuse, environmental stewardship, and partnerships with organizations such as Keep Fort Pierce Beautiful, Manatee Center, Sea & Shoreline, and more, we work together to support the health of our local waterways and ecosystems.

During Earth Month, FPUA will host a hands-on employee event focused on seagrass restoration, including a nursery tour and planting unit assembly with Sea & Shoreline. This effort supports the restoration of 4.9 acres of seagrass in the Indian River Lagoon as we relocate our wastewater treatment plant to Energy Lane.



FPUA COMMUNITY PROUD

SEA & SHORELINE aquatic restoration

In recognition of Manatee Appreciation Day, FPUA leadership paid a visit to our partners at the Manatee Center. During their visit, they engaged with volunteers, visitors, exhibits and staff to show our appreciation of their continued dedication to environmental impact.

FPUA was proud to support the 2026 Great American Cleanup alongside the City of Fort Pierce and Keep Fort Pierce Beautiful, helping kick off the day as a sponsor and joining volunteer efforts to keep our community clean and environmentally healthy.

Internship Opportunities at FPUA

Work, Learn, and Gain Utility Industry Experience
